

List of the participants in the Pärnu training school Sept 10-15, 2012.

	Participant	Institution	Country	Reimbursement	Title of the poster
1	Hanna Raig	University of Tartu	Estonia	doctoral school	Reconstructing the post-glacial history of the Tõrvajõe basin in NE Estonia
2	Alina Tsugai	University of Tartu	Estonia	doctoral school	Ground-penetrating radar studies of the archaeological sites in Estonia
3	Kadri Vilumaa	Tallinn University	Estonia	doctoral school	The influence of different environmental factors on aeolian coastal dune landscape development: case studies from Estonia
4	Ieva Grudzinska	Tallinn University of Technology	Estonia/Latvia	doctoral school	Diatom stratigraphy and shoreline configuration in northern Estonia during the last 4000 years
5	Olga Druzhinina	I. Kant Baltic Federal University	Russia	doctoral school	Palaeoecological Researches in Southeast Baltic: Results of 2009-2012 (based on materials from the Kaliningrad Region)
6	Enno Bregman	Utrecht University	Netherlands	SPLASHCOS	Post-glacial coast development and human settling of the North European Ice Marginal Landscape (IML)
7	Nikas Dobrotinas	Klaipeda University	Lithuania	doctoral school	Reconstruction of paleodynamics of the Curonian Spit dunes based on the ground-penetrating radar (GPR) survey and LIDAR data
8	Merle Muru	University of Tartu	Estonia	doctoral school	Generating digital terrain model and palaeoreconstructions of Narva-Luga Klint Bay area
9	Margarita Kholkina	St.Petersburg State University	Russia	doctoral school	Late neolithic and early metal period ceramics on the Karelian Isthmus
10	Grzegorz Uscinowicz	Polish Geological Institute	Poland	SPLASHCOS	The presence of human on the Vistula Spit and Vistula Delta in the context of environmental transformations and geoheritage
11	Kuldev Ploom	Estonian Geological Survey	Estonia	SPLASHCOS	Clay diapirs in the coastal zone of eastern Gulf of Finland
12	Agnese Pujate	University of Latvia	Latvia	doctoral school	Anthropogenic impact indication in lake sediments of different genesis in Latvian: preliminary!!!
13	Hando-Laur Habicht	University of Tartu	Estonia	SPLASHCOS	LIDAR-based palaeogeographic reconstruction of the Litorina Sea lagoon in Tolkuse area, SW Estonia
14	Aldona Damušytė	Lithuanian Geological Survey	Lithuania	SPLASHCOS	Moraine reefs on the Lithuanian offshore, South-eastern Baltic
15	Alba Mazza	Department for Research, Conservation and Management of Marine Heritage	Italy	SPLASHCOS	Central Mediterranean Submerged Prehistory. The Mesolithic - Neolithic passage in Sicily through Island, Seaways and Maritime Connectivity
16	Tõnis Oja	Tallinn University of Technology	Estonia	doctoral school	DETERMING THE POST-GLACIAL REBOUND IN ESTONIA FROM GNSS OBSERVATIONS
